

# **Communications Report to the Parish Council**

## **Updating the Parish Booklet**

A start has been made on this project with an email being sent to all possible contributors requesting an update of their original entry (or, in many cases, a completely new entry). There are many parish activities/facilities that were not in place by 1999 and it is obviously important that any update fully represents our parish life.

I attach a copy of this email for info.

I have three queries:

- Would it be wise to update and incorporate in this revised version of the Parish Booklet, the information in the green 'Moving Forward' pamphlet (about the main parish groups) so we end up with just one booklet?
- John Elwick has kindly agreed to manage the IT involved in the production of the booklet once all the items are ready. Is there anyone who is interested and willing to help with the large task of obtaining, consolidating and editing the items?
- Does anyone have any ideas about lay out?

## **Information Talks to Parish by Groups (3 minute at end of mass)**

Our new Youth Worker, Venus Garcia George, will be addressing the parish at all masses over the next couple of Sundays.

I have had no other group leader volunteer to give information in this way. This is to be regretted, as parishioners have seemed very positive about the short talks that have taken place. Perhaps there will now be a flood of volunteers?
